

Forthcoming Articles

REVIEW ARTICLES

Sonography of the gravid uterus and placenta: current concepts. *Harris RD, Barth RA*

Thrombosis and infection caused by thoracic venous catheters: pathogenesis and imaging findings. *Wechsler RJ, Spirn PW, Conant EF, Steiner RM, Needleman L*

CHEST RADIOLOGY

High-resolution computer display of portable, digital, chest radiographs of adults: suitability for primary interpretation. *Frank MS, Jost RG, Molina PL, et al.*

High-resolution CT of the chest: radiation dose. *Mayo JR, Jackson SA, Müller NL*

A new asymmetric screen-film combination for conventional chest radiography: evaluation in 50 patients. *Swensen SJ, Gray JE, Brown LR, Aughenbaugh GL, Harms GF, Stears J*

BREAST RADIOLOGY

Pictorial essay. Mammographic findings after the removal of breast implants. *Hayes MK, Gold RH, Bassett LW*

GASTROINTESTINAL RADIOLOGY

How to improve the efficacy of the barium enema examination. *Ott DJ, Gelfand DW*

Celiac plexus block: efficacy and safety of the anterior approach. *Romanelli DF, Beckmann CF, Heiss FW*

Fast multiplanar spoiled gradient-recalled imaging of the liver: pulse sequence optimization and comparison with spin-echo MR imaging. *Low RN, Francis IR, Herfkens RJ, et al.*

Surgical treatment of hepatic metastases: impact of intraoperative sonography. *Soyer P, Elias D, Zeitoun G, Roche A, Levesque M*

Correlation of flow characteristics of hepatic tumors on color Doppler sonography with arteriography. *Numata K, Tanaka K, Mitsui K, Morimoto M, Inoue S, Yonezawa H*

Case report. Mature cystic teratoma of the pancreas: sonographic and CT findings. *Jacobs JE, Dinsmore BJ*

GENITOURINARY RADIOLOGY

The role of MR imaging in determining surgical eligibility for pelvic exenteration. *Popovich MJ, Hricak H, Sugimura K, Stern JL*

Estimating the depth of myometrial involvement by endometrial carcinoma: efficacy of transvaginal sonography vs MR imaging. *DelMaschio A, Vanzulli A, Garancini P, Spagnolo D, Belloni C, Taccagni GL*

Tubular ectasia of the testicle: sonographic and MR imaging appearance. *Tartar VM, Trambert MA, Balsara ZN, Mattrey RF*

Pictorial essay. Sonography of the scrotum after orchietomy: normal and abnormal findings. *Eftekhari F, Smith JK*

Case report. Incisional endometrioma involving the rectus abdominis muscle and subcutaneous tissues: CT appearance. *Coley BD, Casola G*

Case report. Postpartum ovarian vein thrombosis: diagnosis by clot protrusion into the inferior vena cava at sonography. *Grant TH, Schoettle BW, Buchsbaum MS*

Perspective. OB/GYN radiology: it's time. *Thurmond AS, Jones MK*

SKELETAL RADIOLOGY

MR diagnosis of meniscal tears of the knee: effect of observer variation and sample size on sensitivity and specificity. *DeSmet AA, Norris MA, Yandow DR, Graf BK, Keene JS*

Pictorial essay. Sonography of the shoulder: evaluation of the subacromial-subdeltoid bursa. *van Holsbeeck M, Strouse PJ*

Pictorial essay. MR imaging of the forefoot: normal anatomic findings. *Erickson SJ, Rosengarten JL*

Technical note. Quantification of bone marrow cellularity on MR: use of chemical-shift misregistration artifact. *Ishizaka H, Tomiyoshi K, Matsumoto M*

Technical note. Radiographic diagnosis of fractures of the phalanx: importance of the internally rotated oblique projection. *Street JM*

PEDIATRIC RADIOLOGY

Rectal methohexital for sedation of children during imaging procedures. *Manuli MA, Davies L*

Commentary. Guidelines for the monitoring and care of children during and after sedation for imaging studies. *Nelson MD Jr*

Ovaries in normal neonates and young children: a sonographic study of 77 patients 1 day to 24 months old. *Cohen HL, Shapiro MA, Mandel FS, Shapiro ML*

Periosteal reaction of the ribs in neonates treated with extracorporeal membrane oxygenation: prevalence and association with soft-tissue swelling. *Feinstein KA, Fernbach SK*

Case report. The prominent conoid process of the clavicle: a new radiographic sign in Down's syndrome. *Weinberg B, Maldjian C, Kass EG, Himmelstein ES*

NEURORADIOLOGY

Assessment of cerebral perfusion by first-pass dynamic, contrast-enhanced steady-state free-precession MR imaging: an animal study. *Runge VM, Kirsch JE, Wells JW, Woolfolk CE*

Case report. Aicardi's syndrome: MR appearance of unusual orbital and ventricular cystic lesions. *Mehta RC, Marks MP, Levin PS*

Case report. Amyotrophic lateral sclerosis: hyperintensity of the corticospinal tracts on MR imaging of the spinal cord. *Friedman DP, Tartaglino LM*

ENDOCRINE RADIOLOGY

Detection of abnormal parathyroid glands in postoperative patients with recurrent hyperparathyroidism: sensitivity of MR imaging. *Stevens SK, Chang J-M, Clark OH, Chang PJ, Higgins CB*

VASCULAR RADIOLOGY

Review. Intravascular stents: tissue-stent interactions and design considerations. *Palmaz JC*

Detection and quantification of carotid artery stenosis: efficacy of various Doppler velocity parameters. *Hunink MGM, Polak JF, Barlan MM, O'Leary DH*

Morphologic and hemodynamic findings at sonography before and after placement of a transjugular intrahepatic portosystemic shunt. *Surratt RS, Middleton WD, Darcy MD, Melson GL, Brink JA*

Balloon angioplasty above the aortic arch: immediate and long-term results. *Selby JB Jr, Matsumoto AH, Tegtmeier CJ, et al.*

CONTRAST MATERIAL

Contrast material for combined abdominal and pelvic CT: can cost be reduced by increasing the concentration and decreasing the volume? *Baker ME, Beam C, Leder R, Gulliver D, Paine SS, Dunnick NR*

MEETING NEWS

Radiology summit meeting 1992: radiologists' role in health care reform. *McClennan BL*
